

During lockdown Kent County Council and Dover District Council worked together assisting residents experiencing difficulties.

Firstly Clinically Extremely Vulnerable people were contacted offering help. Working with local charities, voluntary groups thousands of food parcels were delivered and numerous families supported with prescription and medication needs.

Conservatives will work on developing and delivering the Reconnect plan to help and support children and young people after the pandemic including supporting youth groups of all kinds.

We will continue to support parents of pre-school children and work with schools and health partners helping children with Special Educational Needs and Disabilities and help improve the mental health and resilience of children and young people.

Tough challenges are ahead as we come out of the Covid pandemic and try to rebuild the local environment especially our town centre.

We need to maintain the strong contacts that have been built up over the years and work in partnership with them to see Dover grow again. We will ensure that the support for vulnerable and needy in the area continues. For this to be delivered we need experienced hands on the steering wheel – Conservative hands.

The roads around the Port of Dover get gridlocked far too often. Through Conservative persistency, the Government is now supporting efforts to KEEP DOVER CLEAR. WE ARE NOW GETTING SOMEWHERE!

In a few weeks some changes will be visible as part of a programme to improve access to Dover. The congestion experienced before last Christmas must not happen again.

Both the Conservative led Kent County Council and Dover District Council, have declared Climate Emergencies. Attention must be paid to vehicle emissions, returning garden areas to growing plants, vegetables or planting trees and recycling helping reduce packaging to avoid plastics entering our waters.

Our efforts will be aimed at improving health and wellbeing, sustaining property values, delivering new skills and associated employment opportunities while addressing emissions and bio-diversity concerns.

Nigel COLLOR and

Oliver RICHARDSON

for Dover Town *incl River*

We will support Dover coming out of COVID Lockdown

We will fight to 'Keep Dover Clear'

We are committed to the environment

We will ensure there is support for our community

We will continue to develop Children's Services

Conservative**

Local Issues, Local Action, Local Conservatives

I am a born and bred Doverian and have worked in the town all of my life.

I got involved in local politics when elected to Dover District Council in 2000 where I am still a Member to date. I have also served as a Member of Kent County Council for 8 years currently representing Dover Town and River.

I have specialised in highways and transport issues and been instrumental in having the high speed train service extended to Dover and introducing an improved bus experience to the area.

More recently, I have made a concentrated effort to get the quality of roads improved and pressing for pot hole repairs to be undertaken quickly once reported.

A lot of work undertaken by KCC members is not publicised as it is frequently extremely personal to the constituents such as school issues, including school transport, social service issues and other family concerns.

As a re-elected Member for the Division, I will continue to work hard for the community to get the best possible for our residents and businesses.

I am proud to have served our Country in our Armed Forces and I try to take the same no nonsense, pragmatic approach to the issues that affect our community.

With your support, when elected, one of my key priorities will be improving social care. Elderly people have given us so much. We must give them in return the security and dignity and quality care that they deserve.

Two other focuses will be matters that play a big part in making all of our lives easier – transport and broadband. I want clearer, safer roads. A specific goal should be a more suitable main road between Dover and Deal.

Broadband is still too slow in many parts. There are opportunities for KCC to fund work in less commercially viable locations, and I plan to fight tooth and nail to secure that support for our community
