Peter

I was born in Mongeham and have lived locally for over 50 years. After a career in banking I have been running retail businesses in east Kent.

I am already an elected member of Dover District Council for part of Walmer parish and attend parish council meetings in that role.

Prior to the 2019 elections Walmer was an exemplary parish council, effectively managed and financially prudent. Since then 2 parish clerks and 5 councillors have been pushed into resigning.

I am standing to re-establish some stability to the council and work to restore its previous reputation.

With expertise in finance and planning I will be concentrating on actual local issues like congestion at the Station Road/Dover Road junction and managing allotments rather than pursuing national political agendas.
